## NEW! esybox MAX

Esybox Max is the latest innovation in the DAB Esyline range. The Esybox Max provides integrated pumping systems for pressurisation in commercial building services industry and for rural and horticultural applications.

### FEATURES:

- Award winning design
- Easy installation and maintenance
- Quiet operation
- Compact
- Water cooled permanent magnet motor
- Integrated inverter optimises performance and comfort which saves money
- Constructed with recycled materials wherever possible

## REPLACE YOUR OLD PUMP CONTROLLERS!

## NEW!

**nXt**  
ICON

## Intelligent Pump Controls

The nXt series represents the next step in pressurised pump controls

Designed and tested in Australia to ensure operation in the toughest of environments, combining innovative technology with robust proven architecture to guarantee constant supply of pressurised water when and where you need it the most. Ideal for pumps supplying clean, non-volatile liquids without fibers or solids.

- Monitors both pressure and flow to control the operation of the pump automatically.
- Protects the pump should the water supply fail (water tank running dry) and will automatically restart operation once water is restored.
- Protects the pump from seizing through lack of use, or frequent starts where there is a water leak.
- LED display that displays real time system pressure and can display indication of flow and any warnings.
- IEC plug and play lead for pump. AX version with round 3 pin socket for pump.

# PRESSURE TANKS ON SALE

**reflex**

Ensuring lower power costs and longer pump life

Thinking solutions.

All Reflex Pressure tanks are Pre-Charged with Nitrogen for longer life.

## FEATURES:

- ✓ Saving power
- ✓ Extending pump life
- ✓ Reduces noise
- ✓ Manufactured in Europe
- ✓ Vertical and horizontal tanks available
- ✓ Internal coating for drinking water applications

## APPLICATIONS:

- ✓ Booster Systems
- ✓ Borehole Systems
- ✓ Sprinklers
- ✓ Irrigation Systems
- ✓ HVAC
- ✓ Thermal Expansion
- ✓ Water hammer arresting

# 3" HELICAL SOLAR PUMP COMPLETE SOLUTION KIT

## BIA-PDP3-SOLAR250 + 1 PANEL ARRAY

Ground water supply – supplying water from wells or reservoirs, ideal for farm, small waterworks. Ideal for windmill replacements.

Ideal for supplying water utilising solar energy to draw water from below ground in remote locations without mains power, saving ongoing costs.

- Max Head: 60m
- Max Flow: 25 l/min
- Reduces costs
- Minimal maintenance
- Multiple applications
- Environmentally friendly
- Works with DC power

### Kit includes:

- Array Single Panel Post mount
- 3" iCON Solar Motor with 30 meters power cable with 4 pin plug
- 3" iCON Positive Displacement Pump
- iCON PDP3 Solar Controller (Plug-n-play)
- Float/Level Switch with 30 meters cable
- Nylon Safety Rope (30 meters)
- Non-return Valve
- Plug-n-play DC Isolator
